

Musical activities for classroom

Form of the group: standing in circle

Level: Preschool, Primary, Secondary

Type of Game: Rhythmic game

Objective: Concentration, bonding of students, no verbal communication

Activity:

- Teacher standing gives a rhythmic patten
- Students repeat
- Teacher plays the rhythm and sees a student in the eyes in order to pass the rhythm
- Then the student who receives the rhythm repeats it and pass it to another student with eye communication

Alternation

- Same game can be performed by accompanying the rhythm with any word. This can be something they learnt in the lesson or a word from migrant languages, or feelings of students etc.
