

# Musical activities for classroom

**Form of the group:** standing in circle

**Level:** Primary, Secondary

**Type of Game:** Rhythmic game

**Objective:** Concentration, bonding of students, no verbal communication

## **Activity:**

- Students repeat the phrase "Pass the Beat around the room Sh". The word "Sh" will be replaced with silence (beat with pause). This sentence is an 8 beat phrase.
- Students repeat the phrase by clapping all the syllables without no clapping at "Sh"
- When the steady beat is established then each student says one syllable and next one should add the second syllable.
- Repetition of the same phrase continues in the circle with no clapping or sound on the last beat "Sh".
- All students should keep a steady beat.
- The person who doesn't respond gets out of the game

## **Alternation**

- When a student gets off the game he stays in circle and the syllable that matches on him/her is not said but it's count as syllable so next student should skip the syllable and say the next one.
- The phrase can be replaces with any other with 8 syllables.
