

# Teaching practices in musical way

**Form of the group:** sitting

**Name of activity:** Clap it

**Objectives:** engagement, concentration, fun, energizer

## **Description**

Teacher creates a routine when he says something and clap it students should follow.

Teacher can call a variety of encouraging and leading small sentences and clap along to each syllable.

Students then listen and repeat the sentence and clap.

Teacher can form a specific series of sentences that he/she will always use in order to create the routine.

When students get acquainted with the sentences they can just perform at the same time with the teacher.

If teacher can create also some singing melodies he/she can perform these sentences in a song.
