

Teaching practices in musical way

Form of the group: Move freely in space

Teaching Activity: Paper airplane

Objective: Bonding, self confidence, language enhancement, getting to know each other

Description

Each child makes a paper airplane and writes on it some characteristics about themselves at their airplane. After a designated cue, each student flies their airplane around the room. When you find a plane, pick it up and keep dropping them for 1-2 minutes. When time runs out, everyone must have a paper airplane. The plane that everyone will have in their hands refers to characteristics of the person that they have to find and present to the class.

The presentation should be done accompanied by some rhythms or melodies that will enhance the presentation. Students can use body percussion, props from classroom to create the appropriate atmosphere for their presentation. They should present the other person as a great personality that deserves the best energy for the presentation.
