

Teaching practices in musical way

Form of the group: sitting

Teaching Activity: Music accompaniment of story telling

Objective: Relaxation, Reduce of conflicts

Description

Relaxing music can be used for children in combination with calm voice of the teacher suggesting imaginations of magic garden full of tranquility, peace and quiet. This technique can be used to reduce conflicts or aggression among children.

Also, the use of relaxing music can be used in reading texts to the students. Music enhances and support the learning procedure.
