

Teaching practices in musical way

Form of the group: circle

Name of activity: Dixit

Objectives: active participation, fun, creativity

Description

Dixit is a board game that has various cards with pictures.

Teacher splits the cards on the desk (pictures should be hidden).

Teacher asks from students to pick up a card and go back to their place.

Students should create a sentence inspired by the picture and connect it with their subject or to express how they feel in classroom. Then students should perform the sentence in singing or rhyming. Students can use body percussion or other materials to accompany their presentation with rhythmical patterns.
